# NOTES TO THE COMPTROLLER'S 2015 ANNUAL REPORT TO THE LEGISLATURE ON THE STATE FUNDS - CASH BASIS OF ACCOUNTING

## NOTE 1 BASIS OF PRESENTATION:

As set forth in State Finance Law, this report is prepared on a cash basis of accounting and conforms substantially to the Financial Plan presentation by the Division of the Budget for the fiscal year ended March 31, 2015. The State Financial Plan sets forth projections of receipts and disbursements in the governmental fund types based initially upon the recommendations in the Executive Budget. After the budget is enacted, the State Financial Plan is adjusted to reflect revenue measures, appropriation bills, and certain related bills enacted by the Legislature. The Financial Plan is updated quarterly or more frequently when necessary, by the Division of the Budget.

## NOTE 2 FUND TYPES:

The State records its transactions in the following fund types:

### Governmental Funds:

General - the major operating fund of the State. It accounts for all receipts that are not required by law to be deposited into another fund. The General Fund's income finances disbursements from the Local Assistance Account, the State Operations Account, the Contingency Reserve Fund, the Universal Pre-Kindergarten Reserve Fund, the Refund Reserve Account, the Fringe Benefit Escrow Account, and the Tobacco Revenue Guarantee Fund. Receipts in excess of General Fund requirements in the Local Assistance Account and State Operations Account are transferred to the Tax Stabilization Reserve Fund at year-end (see Schedule 28). Receipts retained in the Rainy Day Reserve Fund may only be used in an economic downturn or catastrophic event as defined in State Finance Law Section 92-cc.

Special Revenue - to account for State receipts of specific revenue sources (other than debt service or major capital projects) such as Federal grants, that are legally restricted to disbursements for specified purposes. These restrictions may be imposed by the State or Federal government.

Debt Service - to account for the accumulation of resources for, and the payment of principal and interest on general long-term debt and State debt under lease/purchase and contractual obligation financing agreements. Debt service in relation to general obligation debt and certain lease/purchase and contractual obligation payments that are paid from the General Debt Service Fund are funded by transfers from the General Fund. Also disbursed from Debt Service funds are debt service related activities for the Health and Mental Hygiene facilities, for highway construction, reconstruction, reconditioning and preservation and for certain local assistance payments made under contractual agreements with public authorities. Such activities are primarily funded by dedicated tax receipts and patient income.

Capital Projects - to account for resources used for the acquisition or construction of capital facilities. Capital assistance grants to local governments and advances for capital construction costs reimbursable by public authorities of the State, Federal or local governments are also accounted for in these funds. Financial resources are generated primarily from bond issuances, dedicated taxes, reimbursement of advances, Federal grants and transfers from the General Fund.

### State Operating Funds:

State Operating Funds - are comprised of the General Fund, State Special Revenue Funds supported by activities from dedicated revenue sources (including operating transfers from Federal Funds) and Debt Service Funds.

### Proprietary Funds:

Enterprise - to account for activities for which a fee is charged to users for goods or services. Enterprise funds include services provided where either the costs are intended to be recovered primarily through charges to users outside of the State entity, or where the potential exists for significant financing through user charges, even if the legislative intent is not to self-finance the service and instead subsidize it from general governmental resources.

Internal Service - to account for any activity that provides goods or services to other funds, other State agencies or other governmental units on a cost-reimbursement basis.

### Fiduciary Funds:

Private Purpose Trust - to account for all other trust arrangements where the principal and income benefits individuals, private organizations or other governments.

Pension Trust - to account for the cash basis results of operations for the administrative portion of the State's Common Retirement Fund. It does not reflect investment activity, balances, or other assets available to this fund. In addition, pension contributions and payments to retirees are excluded since these payments are not required to be appropriated.

Agency - to account for funds held by the State in purely custodial capacity. Cash is held temporarily until disbursements are made to individuals, private organizations or other governmental units.

**NOTES TO THE COMPTROLLER'S 2015 ANNUAL REPORT TO THE LEGISLATURE ON THE STATE FUNDS - CASH BASIS OF ACCOUNTING**

**NOTE 3 DISBURSEMENT DESCRIPTIONS:**

The State's Cash report includes payments made pursuant to an appropriation, as well as non-appropriated payments from funds held in a fiduciary capacity.

Local Assistance Grants - includes payments to counties, cities, towns, villages, school districts, private schools and other local entities as well as certain financial assistance to, or on behalf of, individuals and nonprofit organizations. Schedule 7 contains further information relating to local assistance disbursements by program.

Departmental Operations - includes the payment of salaries and compensation for State employees, miscellaneous contractual payments, supplies and materials, travel, rentals and repairs, utilities, postage and shipping, printing, telephone, and other miscellaneous operating costs of State departments and agencies.

General State Charges - includes costs mandated either by statute, collective bargaining agreements or court order. Charges in this category include contributions to pension systems, to the employer's share of social security contributions, employer contributions toward the cost of medical and dental insurance, workers' compensation and unemployment insurance, and contributions to union employee benefit funds which provide vision care and other services. Also included are fixed costs for State payments in lieu of taxes, as well as payments for local assessments on State-owned land, judgments against the State pursuant to the Court of Claims Act, defense(s) by private counsel or alternately, payments on behalf of State officers and employees in civil judicial proceedings.

Debt Service - includes debt service on long-term debt and payments on certain lease/purchase or contractual obligation contracts accounted for in Debt Service Funds (see Schedules 15 and 19). Under lease/purchase or contractual obligation financing arrangements, public authorities and certain municipalities have issued debt to finance the acquisition, construction or rehabilitation of State facilities or equipment and expect to receive rental or contractual payments from the State in an amount equal to the debt issued by the authority or municipality.

Capital Projects - includes payments made for the acquisition or construction of the State's capital facilities. Included in this category are planning, land acquisition, design, construction, engineering services, and equipment costs attributable to highways, parkways, rail preservation, outdoor recreation, and environmental conservation projects, as well as payments to local government units and public authorities to help finance highways, parkways, bridges, mass transportation, aviation, economic development, port development, community colleges, community and State mental hygiene buildings, outdoor recreational parks, correctional and State-assisted housing and environmental quality projects. Advances are made for capital construction cost reimbursable by public benefit corporations, the Federal or local governments, or from the proceeds of State bonds and note sales.

**NOTE 4 OTHER FINANCING SOURCES (USES):**

(\*) Agency funds are used to account for funds held by the State in a purely custodial capacity or to hold monies where the disposition of the receipt is not known at the time the revenue is received. Cash is held until the proper disposition is determined (e.g., transferred to a State fund) or until payments are made to individuals, private organizations or other governmental units (e.g., payment of withholding taxes). Agency funds are also used for temporary investment purposes where a State fund payment has been issued but the checks have not cleared the bank account from which the checks were issued (e.g., Medicaid, EPIC).

(\*\*) Federal Receipts represent participating employers' share of the Medicare Part D subsidy. Participating employers include local governments, public authorities, public benefit corporations and municipal corporations.

(\*) Temporary Loans are authorized pursuant to Subdivision 5 of Section 4 of the State Finance Law and Chapter 55, Part I, Section 1 and 1A, of the Laws of 2014-15. These loans represent authorizations made by the Legislature to allow certain funds/accounts to make appropriated payments regardless of the fund (cash) balance. Such loans are made from the State's Short-Term Investment Pool (STIP) and are intended to satisfy temporary cash shortfalls whenever scheduled disbursements exceed available revenues during the fiscal year. Generally, temporary loans are repaid from the first cash receipts of the fund or account. In some cases, actual revenues are not sufficient to repay all loans made to the fund or account and a transfer from the General Fund "Repayment of Receivables" appropriation is approved by the Budget Director.

(\*) Temporary Loans are authorized pursuant to Subdivision 5 of Section 4 of the State Finance Law and Chapter 55, Part I, Section 1 and 1A, of the Laws of 2014-15. The loans represent authorizations made by the Legislature to allow certain funds to make appropriated payments regardless of the fund (cash) balance. Such loans are made from the State's Short-Term Investment Pool (STIP) and are intended to satisfy temporary cash shortfalls whenever scheduled disbursements exceed available revenues during the fiscal year. Generally, temporary loans are repaid from the first cash receipts of the fund. In some cases, actual revenues are not sufficient to repay all loans made to the fund and a transfer from the General Fund "Repayment of Receivables" appropriation is approved by the Budget Director.
