Office of the State Comptroller Audit Recommendations

Recommendation #1

Perform a full review of cost savings activities to identify and correct inconsistencies and inaccuracies in methodologies.

Implementation Plan of Action

Already implemented.

OMIG had already undertaken a full review of its cost savings activities well before the OSC audit commenced. OMIG has also created a Cost Savings Workgroup to ensure continued improvements to its processes. This Workgroup is comprised of managers and staff from OMIG's Executive, Administrative, and System Utilization Review Divisions, as well as from the Office of Risk Management, Bureau of Quality Assurance, and Bureau of Fiscal Management. Meetings are conducted quarterly; but, can also be held as needed if issues arise that require immediate attention.

Recommendation #2

Routinely take steps to identify changes in the Medicaid program that impact cost savings activities and update cost savings methodologies when needed to ensure consistency among all cost savings methodologies.

Implementation Plan of Action

Already implemented.

OMIG had already undertaken a full review of its cost savings activities well before the OSC audit commenced. OMIG's Cost Savings Workgroup will continue to review proactively the agency's cost savings initiatives.

Recommendation #3

Improve communication among managers responsible for cost savings calculations and use their collective input to help routinely identify inconsistencies and refine methodologies.

Implementation Plan of Action

Already implemented.

The Cost Savings Workgroup reviews methodologies, and facilitates communication among all managers responsible for developing and implementing cost savings initiatives.
