Phone #: (518)257-4264

- Note [1]: The eMedNY program is managed using a combination of full-time staff and staff drawn from shared service pools, such as infrastructure support.
- Note [2]: The eMedNY contract is primarily a fixed price services contract, with an hourly component for system changes ("Evolution"). The directions for this form require the use of specified employment categories which in many cases do not directly correspond to the job descriptions used on the eMedNY program, we have however mapped the eMedNY categories as closely as possible to the specified categories, with the result that the categories contain a combination of fixed price and Evolution staffing. For the category of Evolution, which is the only component where compensation is related to the hours worked, eMedNY provides detailed monthly time reporting, by individual, and by Evolution project, to NYS DOH as part of the monthly billing for those services. For the fixed price element, staff work the number of hours necessary to complete assigned tasks, and eMedNY's compensation under the program is based on a monthly fixed charge, and not upon hours worked.
- Note [3]: The eMedNY contract, as a fixed price services contract, provides full integration of all elements necessary to manage the eMedNY program, including hardware, software, technology licenses and maintenance, telecommunications, facilities, and staffing. The amounts payable for these services are not calculated using staffing as a basis, therefore there is no ability to report "Amount Payable Under the Contract".
