**PAYROLL BULLETIN**

Subject  Overtime Calculations after April 22, 1992 for certain PS&T Employees	Bulletin No.  P-728
	Date April 16, 1992

Payroll Bulletin No. P-686, dated February 14, 1991, regarding the payment of 1991 Longevity Awards for employees in the Professional, Scientific and Technical Services Unit (NU05), stated that the Award amount should be factored into the calculation of overtime compensation which is payable through April 22, 1992. (The subsequent deferment of the actual payment until June 18, 1991 does not change this original instruction.)

Agencies are reminded that the Award amount may no longer be added to the annual salary (plus additional salary factors) when submitting payment for overtime services rendered on or after April 23, 1992. When reporting overtime for an inclusive period in which April 23 falls, indicate the number of hours at each overtime rate in the "Remarks" block on the PR-75 form.
