PAYROLL BULLETIN

Subject End of Salary Withholding Program for Security Services/Supervisors Employees	Bulletin No. P-738
	Date August 19, 1992

The legislation that implements the 1991-'94 Agreements between the State and Council 82, representing employees in the Security Services (NU 01) and Security Supervisors (NU 61) units, provides for an end to the deduction of salary pursuant to the provisions of the Salary Withholding Program that was enacted during the early part of 1991.

Employees who are newly hired on or after September 1, 1992 into positions represented by these units will no longer be subject to the deduction of one-tenth of their bi-weekly salary for 5 periods. (The legislation also provides for later repayment, in accordance with the provisions of the Agreements, to those employees in the units who already had salary withheld. Instructions on this repayment will be addressed in a future P-Bulletin.) Continue the deductions for employees in these units who were newly hired prior to September 1, 1992 and who are part way through the process when September 1, 1992 occurs.
