7-Step Process

1. Identify contracts to review
2. Understand requirements
3. Identify risks
4. Prioritize risks
5. Determine risk response
6. Design/execute monitoring activities
7. Follow up

Step 1:

Identify Contracts to Review

Step 1.

Identify Contracts to Review

- What data do you have available?
- How can it help you identify contracts to review?

Open Book New York

"New Yorkers pay among the highest taxes in the country. It's important to have transparency so citizens are empowered with information they need to hold their elected officials accountable." – Thomas P. DiNapoli

Search Millions of State and Local Government Financial Records

As the State's Chief Financial Officer, Comptroller DiNapoli believes New Yorkers deserve to know how their tax dollars are spent. Without transparency in government, there cannot be accountability. His open data initiatives are a commitment to this belief.

If you've ever wondered how much it costs to run your fire department or how much your city spends on education, you can easily track where money is going and how it's being reflected in the State's spending priorities using the Comptroller's Open Book New York.

State Contracts

Search 220,000 contracts that State agencies have with businesses, not-for-profit organizations and other governmental entities in effect April 1, 2012, or later. Includes both contracts approved by the Office of the State Comptroller and those that don't require approval by the Office.

State Payments

Search payments made by the state since April 1, 2012, which now includes about 17,000 new payments each day, and contains the agency submitting the payment request, the payment recipient, the payment amount and the date the payment was made.

The word "SMART" is written in a large, yellow, sans-serif font with a blue outline. It is centered within a white rectangular box that has a blue border.

SMART

Contract Terms – Example

- Contractor will provide
 - One on-site, dedicated (resident) class A elevator mechanic during the hours of 9:00 AM and 5:00 PM on Monday through Friday
 - One on-site, dedicated class A helper during the hours of 9:00 AM and 5:00 PM on Monday through Friday

Step 3:

Identify Risks

Step 3. Identify Risks: What Can Go Wrong?

- Programmatic
 - What can prevent contract terms from being accomplished?
- Fiscal
 - How can the contractor get money they are not entitled to?

Identify Risks – Example

Risk	Area
The mechanic and/or helper work overtime	Programmatic and Fiscal
Contractor does not provide one on-site resident mechanic and one on-site resident helper	Programmatic

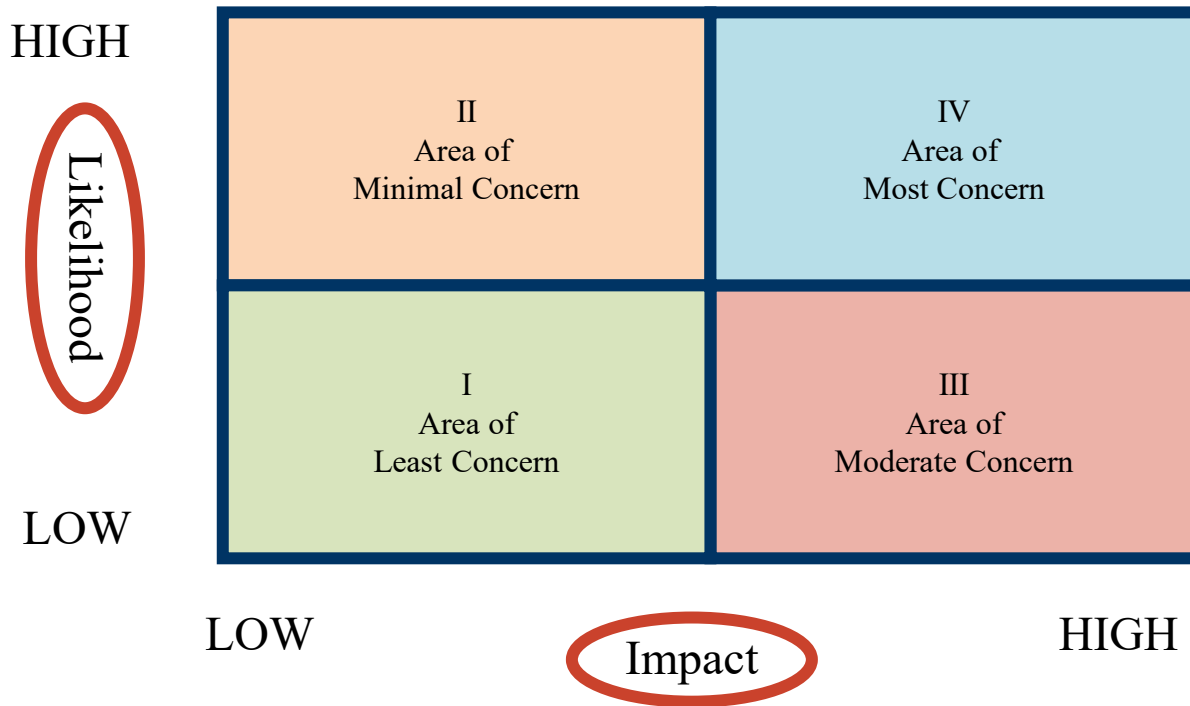

Step 4:

Prioritize Risks

Step 4. Prioritize Risks: So, What's the Big Deal?

Prioritize Risks – Example

Risk	Area	Likelihood	Impact
The mechanic and/or helper work overtime	Programmatic and Fiscal	Medium	High
Contractor does not provide one on-site resident mechanic and/or one on-site resident helper	Programmatic	Medium	High

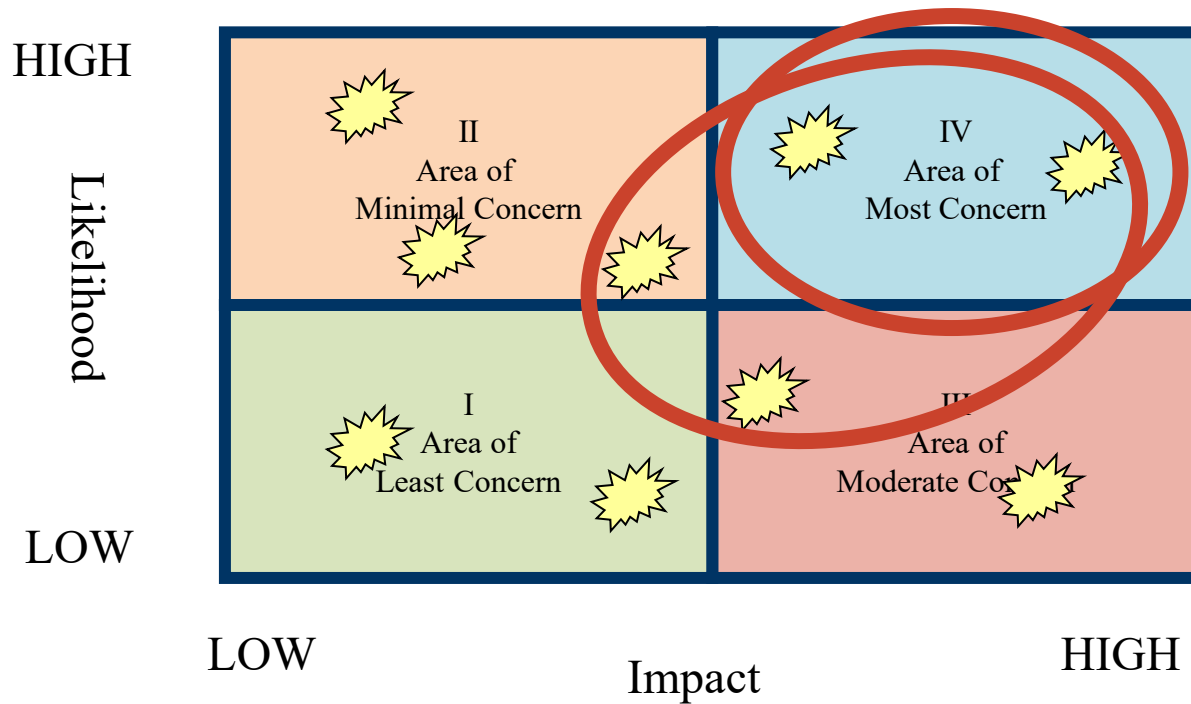

Step 5:

Determine Risk Response

Step 5. Determine Risk Response

Determine Agency's Response to the Risks

- Mitigate
 - Revise administrative procedures
 - Improve control systems
 - Increase auditing
 - Other
- Accept

Determine Risk Response – Example

Risk	Area	Likelihood	Impact	Priority
The mechanic and/or helper work overtime	Programmatic and Fiscal	Medium	High	Mitigate Risk
Contractor does not provide one on-site resident mechanic and/or one on-site resident helper	Programmatic	Medium	High	Mitigate Risk

Step 6:

Design/Execute Monitoring Activities

Step 6. Design and Implement Monitoring Activities

- Design steps to mitigate risks
 - Who is going to do it?
 - How are they going to document it?
 - To whom are they going to give the documentation?

Monitoring

Objective

- Gather information to determine whether things are happening the way they are supposed to be.

Evidence

- Enough information (Sufficient)
- The right information (Appropriate)

Evidence

- Physical
 - Obtained by auditors' direct inspection or observation of people, property, or events
- Documentary
 - Already existing information e.g., letters, contracts, accounting records, invoices
- Testimonial
 - Obtained through inquiries, interviews, focus groups, public forums, or questionnaires

Who Should Monitor?

- Program staff
- Finance staff
- Consultants
- Agency auditors
- OSC auditors

Monitoring Process

- Timing
- Extent

Professional Skepticism

An attitude that includes a questioning mind and critical assessment of information.

Design and Implement Monitoring Activities – Example

Monitoring Activities	Who	How Often	How to Document	Who Receives Documentation	Where to Store Documentation
<p>1) Contractor employees sign in and out on agency elevator oversight log</p> <p>2) Facilities Maintenance Engineer periodically inspects contractor arrival and departure times</p>	Facilities Maintenance Engineer or appropriate designee	<p>Weekly at first</p> <p>More or less often as necessary</p>	Agency elevator oversight log	Prepare e-mail to Clerk 2 in Accounts Payable by COB the first business day of the month	Facilities Maintenance Engineer Office

Break Time!

Please return on time to remain on schedule.

Thank you.

Step 7:

Follow Up

Step 7. Follow Up

Degree of Compliance	Agency Response
High	<ul style="list-style-type: none"> • Re-evaluate and possibly reduce monitoring frequency
Moderate	<ul style="list-style-type: none"> • Direct the contractor to correct identified deficiencies • Facilitate development of a corrective action plan • Advise accounts payable employees • Identify and recover any overpayments • Increase scrutiny of contractor reports and invoices • Increase frequency of follow-up monitoring activities
Low	<ul style="list-style-type: none"> • Facilitate development of a corrective action plan (where practical) and increase the frequency of follow-up monitoring activities • Increase scrutiny of contractor reports and invoices • Terminate contract where corrective action is not practical • Advise accounts payable employees • Identify and recover any overpayments • Consider referral for prosecution

Follow Up – Example

Risk	Degree of Compliance	Agency Response
Contractor does not provide one on-site resident mechanic and one on-site resident helper	High	Change frequency of Facilities Maintenance Engineer oversight with contractor to monthly
