## NOTES TO THE COMPTROLLER'S 2011 ANNUAL REPORT TO THE LEGISLATURE ON STATE FUNDS - CASH BASIS OF ACCOUNTING

### NOTE 1 BASIS OF PRESENTATION:

As set forth in State Finance Law, this report is prepared on the cash basis of accounting and conforms substantially to the Financial Plan presentation prepared by the Division of the Budget for the fiscal year ended March 31, 2011. The State Financial Plan sets forth projections of receipts and disbursements in the governmental fund types based initially, upon the recommendations contained in the Executive Budget. After the budget is enacted, the State Financial Plan is adjusted to reflect revenue measures, appropriation bills, and certain related bills enacted by the Legislature. The Financial Plan is updated quarterly or more frequently when necessary, by the Division of the Budget.

### NOTE 2 FUND TYPES:

The State records its transactions in the following fund types:

#### **Governmental Funds:**

*General* - the major operating fund of the State. It accounts for all receipts that are not required by law to be deposited into another fund. The General Fund's income finances disbursements from the Local Assistance Account, the State Operations Account, the Contingency Reserve Account, the Universal Pre-Kindergarten Reserve Account, the Community Projects Account, the Attica State Employee Victims' Account, the Refund Reserve Account, the Fringe Benefit Escrow Account and the Tobacco Revenue Guarantee Account. In 2010-11, the Federal Medical Assistance Percentages (FMAP) Contingency Fund was established to account for funds set aside to extend FMAP payments in the amount assumed in the FY 2010-11 Financial Plan and to maintain a balanced budget in the event that the federal government failed to enact an extension of the enhanced Federal Medical Assistance Percentages. Receipts in excess of General Fund requirements in the Local Assistance Account and State Operations Account are transferred to the Tax Stabilization Reserve Account at year end (see Schedule 28). Receipts retained in the Rainy Day Reserve Fund may only be used in an economic downturn or catastrophic event as defined in State Finance Law Section 92-cc.

*Special Revenue* - to account for State receipts of specific revenue sources (other than debt service or major capital projects) such as federal grants, that are legally restricted to disbursements for specified purposes. These restrictions may be imposed by the State or federal government.

*Debt Service* - to account for the accumulation of resources for, and the payment of, principal and interest on general long-term debt and State debt under lease/purchase and

contractual obligation financing agreements. Debt service in relation to general obligation debt and certain lease/purchase and contractual obligation payments that are paid from the General Debt Service Fund are funded by transfers from the General Fund. Debt-service-related activities for State University, Health and Mental Hygiene facilities, for highway construction, reconstruction, reconditioning and preservation and for certain local assistance payments made under contractual agreements with public authorities are also disbursed from Debt Service funds. Such activities are primarily funded by dedicated tax receipts, dormitory rentals and patient income.

*Capital Projects* - to account for resources used for the acquisition or construction of capital facilities. Capital assistance grants to local governments and advances for capital construction costs reimbursable by public authorities of the State, federal or local governments are also accounted for in these funds. Financial resources are generated primarily from bond issuances, dedicated taxes, reimbursement of advances, federal grants and transfers from the General Fund.

#### **Proprietary Funds:**

*Enterprise* - to account for activities for which a fee is charged to users for goods or services. Enterprise funds include services where either the costs are intended to be recovered primarily through charges to users outside of the State entity, or where the potential exists for significant financing through user charges, even if the legislative intent is not to self-finance the service and instead subsidize it from general governmental resources.

*Internal Service* - to account for any activity that provides goods or services to other funds, other State agencies or other governmental units on a cost-reimbursement basis. The objective is to recover costs and break even.

#### **Fiduciary Funds:**

*Private Purpose Trust* - to account for all other trust arrangements where the principal and income benefit individuals, private organizations or other governments.

*Pension Trust* - to account for the cash basis results of operations for the administration portion of the State's Common Retirement Fund. It does not reflect investment activity, balances, or other assets available to this fund. In addition, pension contributions and payments to retirees are excluded since these payments are not required to be appropriated.

Under lease/purchase or contractual obligation financing arrangements, public authorities and certain municipalities have issued debt to finance the acquisition, construction and rehabilitation of State facilities or equipment and expect to receive rental or contractual payments from the State in an amount equal to the debt service on the debt issued by the authority or municipality.

Capital Projects - includes payments made for the acquisition or construction of the State's capital facilities. Included in this category are planning, land acquisition, design, construction, engineering services, and equipment costs attributable to highway,

parkway and rail preservation projects; outdoor recreation and environmental conservation projects; payments to local government units and public authorities to help finance highways, parkways, bridges, mass transportation, aviation, economic development, port development, community colleges, community and State mental hygiene buildings, outdoor recreational parks, correctional and State-assisted housing as well as environmental quality projects. (\*) Agency funds are used to account for funds held by the State in a purely custodial capacity or to hold moneys where the disposition of the receipt is not known at the time the revenue is received. Cash is held until the proper disposition is determined (e.g., transferred to a State fund) or until payments are made to individuals, private organizations or other governmental units (e.g., payment of withholding taxes). Agency funds are also used for temporary investment purposes where a State fund payment has been issued but the checks have not cleared the bank account from which the checks were issued (e.g., Medicaid, EPIC).

(\*\*) Federal Receipts represent participating employers' share of the Medicare Part D subsidy. Participating employers include local governments, public authorities, public benefit corporations and municipal corporations.

(\*) Temporary Loans are authorized pursuant to Subdivision 5 of Section 4 of the State Finance Law and Chapter 56, Part JJ, Section 1 and 1A, of the Laws of 2010-11. These loans represent authorizations made by the Legislature to allow certain funds/accounts to make appropriated payments regardless of the fund (cash) balance. Such loans are made from the State's Short-Term Investment Pool (STIP) and are intended to satisfy temporary cash shortfalls whenever scheduled disbursements exceed available revenues during the fiscal year. Generally, temporary loans are repaid from the first cash receipts of the fund or account. In some cases, actual revenues are not sufficient to repay all loans made to the fund or account and a transfer from the General Fund "Repayment of Receivables" appropriation is approved by the Budget Director. Loans are listed by fund/account and are grouped into eight broad categories based on the primary source of loan repayment.

(\*) Temporary Loans are authorized pursuant to Subdivision 5 of Section 4 of the State Finance Law and Chapter 56, Part JJ, Section 1 and 1A, of the Laws of 2010-11. These loans represent authorizations made by the Legislature to allow certain funds/accounts to make appropriated payments regardless of the fund (cash) balance. Such loans are made from the State's Short-Term Investment Pool (STIP) and are intended to satisfy temporary cash shortfalls whenever scheduled disbursements exceed available revenues during the fiscal year. Generally, temporary loans are repaid from the first cash receipts of the fund or account. In some cases, actual revenues are not sufficient to repay all loans made to the fund or account and a transfer from the General Fund "Repayment of Receivables" appropriation is approved by the Budget Director. Loans are listed by fund/account and are grouped into eight broad categories based on the primary source of loan repayment.
